# Protection in Oxfam

Protection as an 'approach'	Protection as a 'sector' or area of programming	
<b>Safe Programming</b>  - avoid doing harm + conflict sensitivity This is the responsibility of all humanitarian staff.	<b>Integrated or Mainstreamed Protection</b> Specific protection activities or projects are integrated into a larger humanitarian programme.	<b>Protection Programs</b> Projects and programs that have specific protection objectives and are of sufficient scale and scope to be considered 'stand alone'.

**How can  
generalists like  
Oxfam work with  
different HLP  
specialists to have  
a more effective  
and coordinated  
response?**
